

**Annex 14****Registration****Scope of the review on****“Power generation from waste heat of submerged arc furnaces” (1324)**

1. The Board agreed to undertake a review of the project activity “Power generation from waste heat of submerged arc furnaces” (1324).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine the additionality of the project activity, in particular with regard to:
 - a. the evidence of prior consideration of the CDM,
 - b. the substantiation of the prohibitive nature of the technological barriers, and
 - c. further substantiation of the claim that the project is the first of its kind.
