

**Annex 14****Registration****Scope of the review on****“Power generation from waste heat of new DRI kilns at JSPL” (1292)**

1. The Board agreed to undertake a review of the project activity “Power generation from waste heat of new DRI kilns at JSPL” (1292).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine the additionality of the project activity, through an assessment of:
 - (a) the detailed timeline of the project activity including evidence that the CDM was seriously considered as necessary to overcome the barriers faced;
 - (b) the validation of the barriers and evidences submitted in response to the request for review;
 - (c) the validation of the choice of the baseline scenario; and
 - (d) the validation of the common practice analysis.
