

**Annex 36****Issuance****Scope of the review on
“Methane capture and combustion from swine manure treatment for Pocillas and La Estrella”
(0033)**

1. The Board agreed to undertake a review of the project activity “Methane capture and combustion from swine manure treatment for Pocillas and La Estrella” (0033).
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine how the DOE verified that the registered monitoring plan complies with the requirements of the approved methodology, in particular:
 - (a) The flare type; and
 - (b) That during the monitoring period in consideration the flare was operating at the design flare efficiency.
