

**Annex 51****Issuance****Scope of the review on  
“SIDPL Methane extraction and Power generation project”(0498)**

1. The Board agreed to undertake a review of the project activity “SIDPL Methane extraction and Power generation project” (0498).
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine how the DOE has verified that the requirements of the monitoring plan regarding measurements of the auxiliary electricity consumption and the total power consumption at the waste water treatment system were met, and reasons as to why the DOE has not requested deviation from the monitoring plan to justify whether the calculation method is appropriate and conservative.
