

**Annex 46****Registration****Scope of the review on****“Power generation from coking waste heat utilization project at Taiyuan City Wanguang Coal and Coking Co., Ltd in Shanxi, China” (1725)**

1. The Board agreed to undertake a review of the project activity “Power generation from coking waste heat utilization project at Taiyuan City Wanguang Coal and Coking Co., Ltd in Shanxi, China” (1725).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the additionality of the project activity through an assessment of the:
 - (a) suitability of the benchmark, in particular whether the project activity produces electricity predominately for captive consumption or for supply to the grid;
 - (b) the independent validation of input values to the investment analysis in line with the requirements of EB 38 paragraph 54(c);
 - (c) production capacity beyond 12.90% of the stated maximum and its impact on the investment analysis; and
 - (d) prior and serious consideration of the CDM, in particular, continuing and real actions taken by PP to secure an Annex 1 project participant in parallel with its implementation.
