Annex 46

Registration

Scope of the review on
“24 MW Perla Mini Hydel Project, Karnataka, India” (2112)

1. The Board agreed to undertake a review of the project activity “24 MW Perla Mini Hydel Project, Karnataka, India” (2112).

2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the project activity, through an assessment of the:

   (a) investment analysis, as it is not demonstrated that the salvage value used for the investment analysis includes the reasonable expectation of the potential profit or loss on the realization of the assets;
   (b) of that the validation of the sensitivity analysis for the tariff has been suitably conducted;
   (c) the barrier analysis, as it has not been demonstrated that the barriers will prevent implementation of the project activity without CDM or whether they are not considered in the investment analysis; and
   (d) the common practice analysis as the upper limit of the range of capacity used for the selection criteria has not been explained or substantiated.
