|  <b>CDM project activity crediting period renewal review form (F-CDM-RENR)</b><br><i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i>   |   |
| <b>Designated national authority/Executive Board member submitting this form</b>   |   |
| <b>Title of the proposed CDM project activity submitted for registration</b>   | (0298) 4.5 MW Biomass (low density Crop Residues) based Power Generation unit of Malavalli Power Plant Pvt Ltd. |
| <b>Please indicate, in accordance with paragraphs 49 (a) of the CDM modalities and procedures and paragraph 6 of Annex 43 of the EB 36 Report, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.</b>  |   |
| <input type="checkbox"/> The following are requirements derived from paragraph 49 (a) of the CDM modalities and procedures and paragraph 6 of Annex 43 of the EB 36 Report: <ul style="list-style-type: none"> <li><input type="checkbox"/> The original baseline scenario or its update is valid;</li> <li><input checked="" type="checkbox"/> New national and/or sectoral policies and circumstances shall not have an impact on the baseline scenario;</li> <li><input type="checkbox"/> The project participant shall apply an approved baseline methodology for the determination of the continued validity of the baseline or its update, and the estimation of emission reductions for the applicable crediting period.</li> </ul> |   |
| <input checked="" type="checkbox"/> There are only minor issues which should be addressed by the DOE / project participants prior to the renewal of the crediting period for the project.  |   |
| <b>Section below to be filled in by UNFCCC secretariat</b>   |   |
| Date received at UNFCCC secretariat  | 07.01.2009  |

*Minor issue:* The DOE should clarify how the new relevant and/or sectoral policies or circumstances were assessed when validating that there is no impact on the baseline scenario.
