

REVIEW OF THE PROJECT ACTIVITY

“ACEL Blended cement project at Sankrail grinding unit” (0861)

The Board agreed to reject the project activity “ACEL Blended cement project at Sankrail grinding unit” (0861), submitted for registration by the DOE (DNV Certification AS), because the project activity does not meet the additionality requirements of paragraphs 43 to 52 of the CDM modalities and procedures because the DOE and project participant failed to substantiate significant and additional technological and market acceptability barriers to increasing the level of additives in the production of blended cement above the baseline level.
