### CAPITAL COST COMPARISON BETWEEN BIOMASS AND FOSSIL FUEL FIRED THERMAL OIL BOILERS

Constants			
Forex			
USD to RM	3.8000	before de-peg	
<i>German Mark (DEM) to RM</i> Inflation rate	1.8479 4.00%	as at 07.07.2000	
milation fate	4.0070		
<b>BIOMASS THERMAL OIL BOILERS</b>			
Contract price of thermal oil heaters	USD	RM	<u>Reference</u>
Boilers 1 and 2	1,818,000.00	6,908,400.00	Contract signed between Hartalega and Vyncke dated
Boiler 3	1,075,000.00	4,085,000.00	Contract signed between Hartalega and Vyncke dated
Auxiliary equipment			
Valves, pumps and expansion bellows	61,905.00	235,239.00	Purchase order 021963
Valves	68,000.00	125,657.20	Purchase order 021582
Expansion bellows		13,660.00	Purchase order 023145
Biomass fuel handler (front wheel loader), bran	d: Manitou	277,000.00	Purchase order 023683
Thermal oil piping (not included in Vyncke's so	cope)		
Insulation		119,565.52	Purchase order 022213
Aluminum jacket for pipe insulation		3,222.40	Purchase order 023622

Supply and install thermal oil piping supports	68,000.00	Invoice number 0310/02
Supply and install thermal oil pipes	325,000.00	Invoice number 0324/02
Thermal oil piping at secondary pumps	214,600.00	Invoice number 0323/02
Electrical works (not included in Vyncke's scope)		
Control panel for secondary pumps	38,000.00	Purchase order 023144
Building Works		
Earth work Boiler house and biomass storage buildings:	206,000.00	Claim reference TL/223/01/003
claim 1	361,712.93	Claim reference JH/HSB/TLS/0215/PC/01
claim 2	535,277.27	Claim reference JH/HSB/TLS/0215/PC/02
claim 3	661,580.99	Claim reference JH/HSB/TLS/0215/PC/03
claim 4	508,185.33	Claim reference JH/HSB/TLS/0215/PC/04
<i>claim 5</i> Fire fighting system	173,462.25	Claim reference JH/HSB/TLS/0215/PC/05
claim 1	32,543.69	Claim reference JH/HSB/UEFSB/0215/PC/01-FF
claim 2 claim 3	92,591.06	Claim reference JH/HSB/UFESB/0215/PC/02-FF
Electrical works - main incoming, building lightings, etc. <i>claim 1</i>		Claim reference JH/HSB/TP/0215/PC/01-ET

	390,627.65	
claim 2	84,972.75	Claim reference JH/HSB/TP/0215/PC/02-ET
Consultant's fees for M&E	22,464.00	Invoice number 0015
Consultant's fees for civil and structural	81,386.75	Inovice number 0019
TOTAL	15,564,148.79	

## FOSSIL FUEL FIRED BOILERS

1) Using price of purchase of old fossil fuel fired thermal oil boiler as reference

		DEM	RM	
-	chase of an old 4 Gcal/hr thermal mplete with control panel, burner	185,000.00	341,861.50	Commercial invoice no. K00341
Estimated in	stallation cost per unit		10,000.00	Estimation
Total procur	ement and installation cost		351,861.50	
<u>^</u>	or 5 units (require 5 units to MW thermal oil energy as stated	925,000.00	1,759,307.50	
Price taking	into account inflation rate of 4%		1,978,981.67	

2) Using budgetary quotation from MecMar (boiler manufacturer) as reference

	RM	Reference
Thermal oil boiler model MTH 12 Mbtu/hr	455,000.00	Reference - quotation from MechMar HL/5701/09/07/SMK
Price for 6 units (require 6 units to generate 20MW thermal oil energy as stated in PDD)	2,730,000.00	
Cost of natural gas fired hot water boiler of capacity of 5.8MW	446,500.00	Contract with MechMar C577/BP/04
Total capital cost for fossil fired equipment	3,176,500.00	

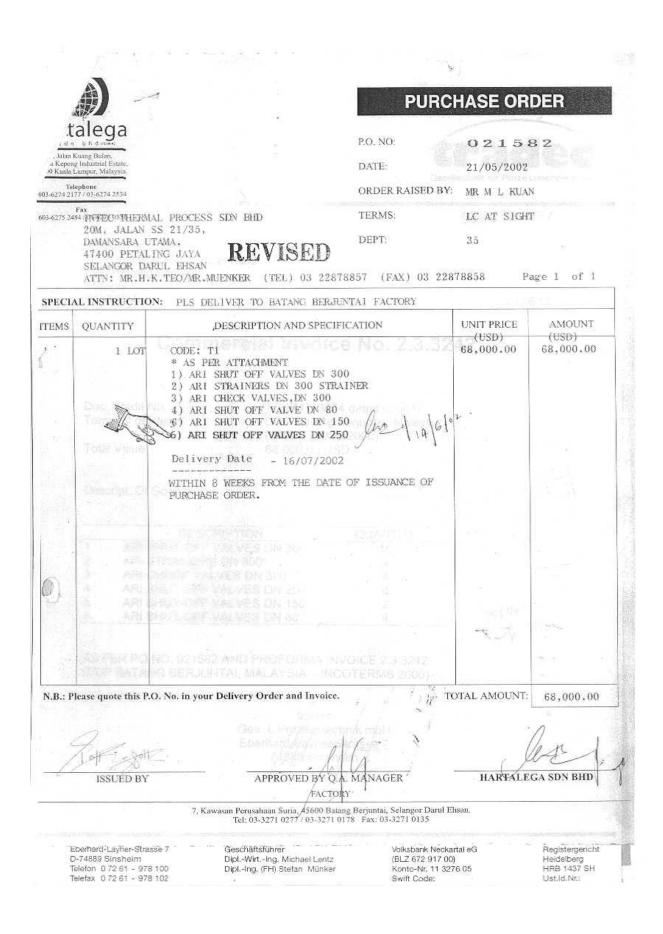

Capital cost ratio for investment in biomass boilers compare to fossil fuel boiler (using budgetary quotation from MechMar)

4.9

#### Attn: Mr M.L. Kuan

Dear Sir,

#### RE: MECHMAR THERMAL FLUID HEATER ( 6 X MTH 12MBTU/HR)

With refer to the above, appended our budgetary price for your perusal.

To supply, delivery, install, testing & commissioning (site: within Selangor, Malaysia) 1) MTH 12 Mbtu/hr (c/w Burner for Natural Gas firing)

- 2) Mild Steel Chimney (50'H)
- 3) Expansion Tank
- 4) Sump Tank
- 5) Circulating Pump
- 6) Hot Oil Piping within Heater Room
- 7) Drain/Overflow Piping

1 complete set of MTH 12 Mbtu/hr (3.51 MW) ~ RM 455,000.00 For 6 sets of MTH 12 Mbtu/hr(total = 21 MW) ~ RM 2,730,000.00

Exclude:

- · Electrical work
- · Hot Oil Piping to process
- Civil/RC work
- · Anything not mention in the above.

Thank you.

Yours faithfully, MECHMAR COCHRAN BOILERS (M) SDN BHD

### MECHMAR COCHRAN BOILERS (M) SDN BHD

Boiler Transportation to site, Unloading, Installation and Commissioning at site

1.3.1 Supply of trailer to transport hot water boiler from seller factory to Site.

- 1.3.2 Supply of labour, equipment and mobile crane to unload and position the steam boiler onto a prepared foundation. <u>The client shall make access road and ground foundation to the boilerhouse available.</u>
- 1.3.3 Supply of one(1) technician to hydrostatic test and commission steam boiler to the satisfaction of Boiler Inspector from Jabatan Keselamatan dan Kesihatan Pekerjaan.

#### **Boiler Operating Platform**

Mild steel boiler operating platform c/w handrail and ladder using mild steel plate, angle iron and black 'B' pipe. The structure shall be painted with one(1) coat of red oxide primer and two(2) coats of black paint. The operating platform, handrail and ladder are accordingly to our standard design, and comply to JKKP's requirement.

#### **Chimney and Flue Ducting**

Free standing chimney of welded construction and sandblasted to SA 2.5. Chimney comes complete with standard sampling platform and cage ladder.

The main stack shall be linked to the boiler with mild steel flue ducting c/w bend and transfer joint. Flue ducting within the boilerhouse shall be insulated with **50mm** thick rockwool slab and finished with 26swg aluminum cladding secured firmly with pop-rivets. The base of the stack to be mounted onto a suitable concrete foundation with holding down bolts. However, supply of holding down bolts and nuts, grouting and RC foundation are excluded.

Chimney and flue ducting shall be painted externally with two(2) coats of heat resistant paint. Chimney construction shall not be subjected to NDT inspection and any request shall be charged accordingly before commencement of works.

The construction of the chimney shall comply to the Clean Air Regulation and approved by the Ministry of Environment. <u>Should the chimney height be increased by the said authority, our quoted price shall be subjected to variation accordingly.</u>

Department of Environment approval of chimney design takes approx. (8-10) weeks from date of application. Therefore, the <u>Buyers shall provide the factory layout plan to the</u> <u>Sellers within (7) days on signing of contract agreement. These drawing must bear a</u> <u>Professional Engineer's (PE) endorsement.</u>

#### Feedwater Tank

Mild steel feedwater tank c/w level indicator, manhole, vent, drain, overflow, inlet and outlet connections. Tank shall be painted with two(2) coats aluminium heat resistant paint externally and supported on 2m high mild steel angle structure. <u>Tank insulation is excluded</u>. No non-destructive testing inspection shall be applied.

### MECHMAR COCHRAN BOILERS (M) SDN BHD

#### Page 3 of 9 Contract No. 577/BP/04

#### 1.7 <u>Water Softener</u>

Water softener of the following specification c/w brine tank, integral pipework, valves and injector.

Make	: Titan or equal
Туре	: Sodium Cycle/ Manual operated
Operating Pressure	: 50 psig [max]
Material	: Mild steel BS4360 Gr.43A or equal
	[without inner Phonelic lining]
Approval Authority	: Jabatan Keselamatan dan Kesihatan Pekerjaan
Inspection Authority	: Jabatan Keselamatan dan Kesihatan Pekerjaan

#### Chemical Dosing Pump

Chemical metering pump c/w chemical tank. Pump to be connected to work in tandem with boiler feedwater pump for direct injection of chemical into the boiler. All necessary pipeworks with fittings and electrical installation are included.

Make	: A&F, USA or equal
Model	: Simplex Standard
Туре	: Plunger
Motor	: ¼ ⇔ ½ hp TEFC
Electrical Supply	: 415v/3ph/50Hz

### Primary Hot Water Circulating Pump

Supply one(1) unit primary circulating pump of the below specification.

Make	: Grundfos or equal
Capacity	: 201.56 m <sup>3</sup> /hr
Head	: 35 m
Motor required	: 30 kW

1.10

0

#### Hydropneumatic Booster System

The system is supplied complete with accessories such as pressure switch, pre-pressurised pneumatic tank, pressure gauge and all pipings and fittings.

Diaphragm tank capacity : 1,000 litres Make up pump flowrate :  $5 \text{ m}^3/\text{hr}$

	6.0	Exclusion
	6.1	All civil and foundation works.
	6.2	Free and direct access to boilerhouse, costs to dismantle and make good of any existing
		pipework, structure, obstructive objects and adequate security storage area.
	6.3	Incoming electrical supply to the boiler house distribution board, starter board, boiler control
		panel and all cable tray, conduit wiring works at site.
	6.4	All control/instrumentation wiring to and from data acquisition system.
	6.5	Electricity, water, compressed air and fuel supply for boiler hydrostatic testing and commissioning/temporary during installation.
	6.6	Any NDT or mechanical testing on vessel, tank, structure, chimney and any
		items/material/works not specifically mentioned herein.
	6.7	Water sampling cooler, chemicals for boiling out, water treatment, test kit for water treatment
		and flue gas analysis.
	6.8	Explosion proof on motors, valves, fittings, standard accessories, etc.
	6.9	Blowdown tank, blowdown pit and blowdown pit cover.
	6.10	LPG/LNG/CNG/NG storage vessel, pressure reducing station, pipeline and fittings to burner.
	6.11	Air blower set, Flexible shaft machine and accessories for cleaning boiler tubes.
	6.12	Smoke density meter and recorder, if required by Dept of Environment.
	6.13	Expansion tank.
	6.14	Daily fuel tank and oil piping to daily fuel tank.
0	6.15	Fuel oil storage/skid tank.
0	6.16	Rotary fuel transfer pump.
	6.17	Fuel oil ring main system.
	6.18	Incoming compressed air supply to Three Way Control Valve
	6.19	Associated pipeworks and fittings :-
		fuel oil supply pipe.
	6.20	For export :-
	0.20	Crating, packing, cranage and transport to port, insurance, sea freight.
		Port clearance, handling, import charges.
		Air fare, food, lodging and local inland transport to foreign site [outside West Malaysia].
		The face, rood, roughing and rood maine antiport to rorongit one [outside if our main join].
	6.21	Monthly servicing on equipment/piping, etc.
0	6.22	Any other items/material/works not specifically mentioned herein.
	7.0	Termination Points
	7.1	Drain : at nearest drain
	7.2	Electricity : at boiler's control panel.
	7.3	Fuel : at burner inlet connection. (gas inlet pressure <200mbar)
	7.4	Feedwater : at softener inlet connection
	7.5	Flue gas : at chimney outlet connection.
	7.6	Relief valve : 1m outside boilerhouse, through roof or sidewall.
	7.7	Hot water : at primary loop
	7.8	Compressed air : at control valve positioner inlet connection.

#### MECHMAR COCHRAN BOILERS (M) SDN BHD

## 77/BP/04

#### Performance Test

Mechmar shall carry out a performance test on the boiler to prove that the system is able to perform within its rated efficiency provided the following conditions are fulfilled.

- 1) During the test, the boiler must be operating at MCR (20 MBtu/hr) :-
- a) continuously for 3 hours
  b) maximum boiler outlet temperature of 120°C and inlet temperature of 95°C
  c) Temperature difference of 25°C
- d) Boiler water TDS of 3500 ppm (max)
- 2) The full heat load generated by the boiler must be FULLY discharged.
