GUIDANCE RELATED TO THE SUM OF THE SIZE OF COMPONENTS OF A PROJECT ACTIVITY"

(Extract of the report of the twenty-eight meeting of the Executive Board, paragraph 56)

The Board agreed that the sum of the size of components of a project activity belonging to the same type (capacity for type I, energy savings for type II and emission reductions for type III) should not exceed the limits for small-scale CDM project activities as stated in paragraph 28 of the decision - /CMP.2 (e.g. the limit for methane recovery component is 60 ktCO2e/yr and the limit for the electricity production component is 15 MW output capacity).
