

REPORT ON COMMENTS BY PARTIES, STAKEHOLDERS AND NGOS

GUJARAT FLUOROCHEMICALS LTD

CDM PROJECT
FOR GHG EMISSION REDUCTION BY THERMAL OXIDATION
OF HFC23

Project No. CDM.Val0018

Date: March 8, 2005

1 INTRODUCTION

In accordance with sub-paragraphs 40 (b) and (c) of the CDM modalities and procedures, a DOE shall make the project design document of a proposed CDM project activity publicly available and invite comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available. This report gives an explanation on how due account has been taken of comments received.

2 PROJECT DETAILS

2.1 Description of the project activity

This report concerns the CDM Project for GHG Emission Reduction by Thermal Oxidation of HFC23 at the HCFC Plant of Gujarat Fluorochemicals Ltd (GFL). The project involves the installation of a thermal oxidation plant at the GFL site. This plant will destroy the HFC23 which would otherwise continue to be vented to atmosphere. The process will result in the emission of CO₂, both directly as a result of the destruction process and indirectly due to the use of LPG, steam and other inputs to the activity

2.2 Description of how and when the PDD was made publicly available

SGS published the project documents on its website from 2003/12/01 until 2003/12/31 and public comments were invited through the UNFCCC website (refer to <http://cdm.unfccc.int/Validation/publicPDD/view.html?ProjectId=160945808326172952&OE=SGS-UKL>).

3 COMMENTS RECEIVED

3.1 Description of how comments were received and made publicly available

Comments could be submitted by email or fax. Comments are made publicly available through the SGS website

3.2 Compilation of all comments received

No comments were received within the 30 days consultation period. One comment was received outside the 30 day period and therefore was not made publicly available. The nature of the comment did not require further action.
