
ANNEX 1

REPORT ON COMMENTS BY PARTIES, STAKEHOLDERS AND NGOS

CLIENT NAME

GMR INDUSTRIES LIMITED [GIDL]

Project Title

Methane Recovery and Power Generation in a
Distillery Plant by GMR Industries Ltd.(GIDL)

Project No. CDMVAL0323

Date: 17-05-2006

1 INTRODUCTION

In accordance with sub-paragraphs 40 (b) and (c) of the CDM modalities and procedures, the project design document of a proposed CDM project activity shall be made publicly available and the DOE shall make invite comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available. This report describes this process for this particular project.

2 PROJECT DETAILS

2.1 Project title

Methane recovery and power generation in a distillery plant of GMR industries limited (GIDL).

2.2 Description of how and when the PDD was made publicly available

The Project Design Documents and its annexes were made publicly available from 31-03-2006 until 29-04-2006 on the SGS climate change programme website <http://www.sgsqualitynetwork.com/tradeassurance/ccp/projects/project.php?id=92> and comments were invited through the UNFCCC CDM homepage as well.

(NOTE if several revisions of the PDD were reviewed as part of the validation, include the date or revision number of the PDD that was published for stakeholder consultation)

3 COMMENTS RECEIVED NO COMMENT RECEIVED

3.1 Description of how comments were received and made publicly available

As per procedures on public availability of the CDM project design documents and for receiving comments as referred to in paragraphs 40b and 40c of the CDM modalities and procedures, any received comments are displayed from the end of the 30 days commenting period, at the website listed in section 2.2.

NO comment was received

3.2 Compilation of all comments received

<i>Comment number</i>	<i>Date received</i>	<i>Submitter</i>	<i>Comment</i>

4 EXPLANATION OF HOW COMMENTS HAVE BEEN TAKEN INTO ACCOUNT

During International Stake holder consultation, no comment was received.

Site visit and local stake holder consultation has been undertaken. The local assessors met few local villagers and did not find any adverse comment about the project. The villagers are happy with the project as it would help them in their economic upliftment through local employment. It would also benefit their farming by getting the bio-compost at highly subsidized rates which results in increasing the fertility of soil. This results in high productivity of crop.
