Re.: Use of Footnote 18 of ACM0012 Ver-04 where project activity is in commercial production on start of validation process

Dear Mr. Singhania,

Thank you for your letter received on 30 March 2012, which has been made available to the Chair of the Board.

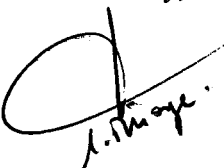

On behalf of the Chair of the Board, I would like to thank you for communicating your question about the application of the ACM0012 version 04.

I would like to inform you that the issue raised in your submission was referred to the Methodologies Panel, and it will be taken into consideration during the revision of the aforementioned methodology at a forthcoming meeting.

Additionally, I would like to encourage you to submit specific queries related to application of CDM methodologies using the Procedure for submission and consideration of queries regarding the application of approved methodologies and methodological tools by designated operational entities to the Meth Panel, which is the appropriate channel for communication of this nature.

I hope this letter suitably addresses all your concerns.

Yours sincerely,

O.C.

Andrew Howard
Secretary to the CDM Executive Board
