Re.: Deadline for registration of the projects in 2012

Dear Mr. Santo,

Thank you for your letter received on 25 July 2012, which has been made available to the Chair of the Board.

On behalf of the Chair of the Board, I would like to inform you that the answer to your questions about the registration date of the projects is available on the Frequent Asked Questions section of the UNFCCC CDM website (<http://cdm.unfccc.int/faq/index.html>). For all registration requests submitted on or after 11 December 2010 (including PoA), the date of registration is the date on which a complete request for registration has been submitted. This is considered to be the day by which both the registration request and the registration fee have been received by the secretariat. In cases when no fee is required, it is the day on which the registration request was submitted. However, the registration request will only be considered complete, when it successfully passes the completeness check and the information and reporting check described in the procedure for requests for registration of proposed CDM project activities or the project cycle procedure, depending on the track followed. In cases where a registration request is considered incomplete at one of the checks, it has to be re-submitted with revised documentation. The date on which a registration request is re-submitted and successfully passes the checking stages will be then considered the effective date of registration. For all registration requests submitted before 11 December 2010, it is the day following the period during which a review may be requested. For all registration requests which were under review, and for which the review resulted in the conclusion to register, it is the day on which the latest revisions to the validation report and/or supporting documentation were submitted."

Requests concerning the European Union directives should be sent to the European Commission.

I hope this letter suitably addresses all your concerns.

Yours sincerely,

Andrew Howard
Secretary to the CDM Executive Board
