Re.: Issue on the potential PoA regulations address to EB 69th Meeting Report

Dear Mr. Otkur Ghojash,

Thank you for your letter received on 17 October 2012, which has been made available to the CDM Executive Board.

Your concern about the guidance provided in the paragraph 93 (b) of the report of the 69th meeting of the CDM Executive Board (CDM EB) has been shared with the team responsible for the “Revision of regulatory documents due to introduction or changes to provisions related to PoA”.

The specific issue was discussed by the CDM EB at its 70th meeting and you will find the outcome in the paragraph 144 (a) of the revised version of the CDM Project Standard (Version 02):

“(a)For PoAs applying the same technology/measure under the same methodology across all CPAs, only one specific case CPA DD shall be provided;”

Please also note that according to the revised version of the CDM Project Standard (Version 02), a coordinating/managing entity may include a Component Project Activity (CPA) in a registered CDM Programme of Activity (PoA) at any time during the duration of the PoA provided that the requirements in paragraphs 185–186 of this same CDM Project Standard are met.

Page 2

I hope this letter suitably addresses all your concerns.

Yours sincerely,

Andrew Howard
Secretary to the CDM Executive Board
