

**Annex 11****Scope of the review on  
“Increasing the Additive Blend in cement production  
by Jaiprakash Associates Ltd (JAL)” (0454)**

1. The Board agreed to undertake a review of the project activity “Increasing the Additive Blend in cement production by Jaiprakash Associates Ltd (JAL)” (0454).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine:
  - a) the existence and significance of barriers to increasing the level of fly ash in blended cement above 22-25 per cent; and
  - b) how these barriers can be alleviated by means of CDM revenues.
