

**Annex 30****Registration****Scope of the review on  
“SSPL 4.5 MW WHRB CPP” (1640)**

1. The Board agreed to undertake a review of the project activity “SSPL 4.5 MW WHRB CPP” (1640).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the:
  - (a) investment barrier, in particular the financing option for the baseline 15MW coal based power plant;
  - (b) serious prior consideration of the CDM;
  - (c) baseline determination, in particular (i) the levelised cost analysis; (ii) why grid power was not selected as the baseline and (iii) validation of assumptions including the backup cost for the 15 MW coal; and
  - (d) monitoring of and accounting for electricity imports and exports in the emission calculations.
