

**Annex 45****Registration****Scope of the review on****“Power generation from coking waste heat utilization project at Taiyuan Gangyuan Coking & Chemicals Co., Ltd in China” (1718)**

1. The Board agreed to undertake a review of the project activity “Power generation from coking waste heat utilization project at Taiyuan Gangyuan Coking & Chemicals Co., Ltd in China” (1718).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the additionality of the project activity through an assessment of the:
 - (a) suitability of the benchmark, in particular, whether the project activity produces electricity predominately for captive consumption or for supply to the grid;
 - (b) the independent validation of input values to the investment analysis in line with the requirements of EB 38 paragraph 54(c); and
 - (c) prior and serious consideration of the CDM, in particular, continuing and real actions taken by PP to secure an Annex 1 project participant in parallel with its implementation.
