

**Annex 31****Registration****Scope of the review on****“Energy efficiency improvement of existing Frame V Gas Turbine by steam injection and change of drive (from steam to electricity) of Ammonia cooling water pumps at NFCL” (1893)**

1. The Board agreed to undertake a review of the project activity “Energy efficiency improvement of existing Frame V Gas Turbine by steam injection and change of drive (from steam to electricity) of Ammonia cooling water pumps at NFCL” (1893).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the application of the methodology through an assessment of the:
  - (a) Baseline and project emissions;
  - (b) Double counting of emission reductions between this and the other existing CDM project activities; and
  - (c) Monitoring of steam and electricity related to the project activity.
