

**Annex 30****Registration****Scope of the review on
“Wuchang Natural Gas Generation Project” (1927)**

1. The Board agreed to undertake a review of the project activity “Wuchang Natural Gas Generation Project” (1927).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review of the applicability of the methodology, through an assessment of the surplus availability of natural gas, as well as the current and planned utilization of natural gas for power generation in the region, to show that the use of natural gas in the project activity will not constrain future natural gas based power capacity additions, as required by the methodology.
