

**Annex 37****Registration****Scope of the review on
“Siam Quality Starch Wastewater Treatment and Energy Generation Project in
Chaiyaphum, Thailand” (1993)**

1. The Board agreed to undertake a review of the project activity “Siam Quality Starch Waster Treatment and Energy Generation Project in Chaiyaphum, Thailand” (1993).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover an assessment to determine the additionality of the project activity through an assessment of the:
 - (a) common practice analysis, as the elimination of similar projects in accordance with the additionality tool has been done transparently; and
 - (b) prior consideration of the CDM, as insufficient information has been provided regarding the real an continuing actions taken to secure CDM status for the project activity in parallel with its implementation.
