

**Annex 68****Issuance****Scope of the review on****“Project for the catalytic reduction of N₂O emissions with a secondary catalyst inside the ammonia reactor of the N₃ nitric acid plant at Haifa Chemicals Ltd., Israel” (1174)**

1. The Board agreed to undertake a review of the project activity “ Project for the catalytic reduction of N₂O emissions with a secondary catalyst inside the ammonia reactor of the N₃ nitric acid plant at Haifa Chemicals Ltd., Israel” (1174).
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine how the DOE verified that the baseline emission factor after changes in the composition of the catalyst has been conservatively selected in line with the methodology.
