

**Annex 42****Registration****Scope of the review on
“Sichuan Yanyuan Yongning River Hydropower Station” (2190)**

1. The Board agreed to undertake a review of the project activity “Sichuan Yanyuan Yongning River Hydropower Station” (2190).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the proposed project activity, through an assessment of:
 - (a) the reasons for stop of construction and restart afterwards and the increase in plant capacity; and
 - (b) investment analysis, in particular, suitability of: (i) input values, in particular, project lifetime, residual value, static total investment, operational hours, and suitability of the 0.9 effective coefficient of electricity in the context of this project activity; and (ii) tariff as the assumptions related to the tariff applicable to the project activity are not consistent with the feasibility study report and therefore the Board wishes to assess the suitability of the tariff assumption contained in the PDD submitted for registration.
