

**Annex 55****Registration****Scope of the review on  
“Dead Sea Works Ltd. Small Scale Fuel Switch Project” (2263)**

1. The Board agreed to undertake a review of the project activity “Dead Sea Works Ltd. Small Scale Fuel Switch Project” (2263).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to determine the:
  - (a) baseline and additionality of the project activity through an assessment of the barrier analysis, as the barriers have not been sufficiently substantiated;
  - (b) baseline of the project activity through an assessment of the compliance with the paragraph 5 of AMS-III.B. (version 12), as it appears that the ‘output’ has not been defined in line with the methodology;
  - (c) appropriateness of the emission reduction calculations of the project activity through an assessment of emission reduction if they occur only due to fuel switching measure but not on account of any other measures (such as increase in efficiency, etc); and
  - (d) appropriateness of the monitoring plan of the project activity through an assessment of the procedure for monitoring of the ‘output’ as required by the paragraph 9 of AMS-III.B. (version 12).
