

**Annex 35****Registration****Scope of the review on
“GHG emission reductions through waste gas based power generation at Visa Steel
Limited” (2369)**

1. The Board agreed to undertake a review of the project activity “GHG emission reductions through waste gas based power generation at Visa Steel Limited” (2369).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the:
 - (a) Additionality of the project activity through an assessment of the investment costs, as the costs for the waste heat recovery system have not been appropriately validated; and
 - (b) Suitability of baseline selection and clarification on why an alternative compromising of a coal based power plant and import of power from the grid was not considered as a plausible baseline alternative.
