

**Annex 41****Registration****Scope of the review on****“Leak Reduction in Above Ground Gas Distribution Equipment in the KazTransgaz-Tbilisi Gas Distribution System- Tbilisi, Georgia” (2404)**

1. The Board agreed to undertake a review of the project activity “Leak Reduction in Above Ground Gas Distribution Equipment in the KazTransgaz-Tbilisi Gas Distribution System- Tbilisi, Georgia” (2404).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the application of the methodology through an assessment of:
 - (a) The types of leaks that are detected and repaired under the current enforcement status of the safety regulations in Georgia, as the DOE has not indicated how the compliance status with the national regulations has been validated.
 - (b) The expected time schedules for replacement of equipments that may be subject to leaks, as the project participant’s equipment replacement schedule has not been appropriately identified in accordance with the methodology.
