

**Annex 47****Registration****Scope of the review on
“Controlled combustion of municipal solid waste (MSW) and energy generation in Linyi
City, Shandong, China” (2419)**

1. The Board agreed to undertake a review of the project activity “Controlled combustion of municipal solid waste (MSW) and energy generation in Linyi City, Shandong, China” (2419).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the:
 - (a) Additionality of the project activity through an assessment of:
 - (i) Suitability of the input values to the investment analysis, in particular, MSW disposal fee; and
 - (ii) Common practice analysis, in particular, how the project activity and similar projects have been differentiated; and
 - (b) Application of the methodology through an assessment of:
 - (i) How storing of waste is in line with the applicability criteria of the methodology; and
 - (ii) Suitability of the boiler efficiency applied while calculating the baseline emission from displaced thermal energy in accordance with the methodology.
