

**Annex 37****Registration****Scope of the review on
“Gramacho Landfill Gas Project” (2548)**

1. The Board agreed to undertake a review of the project activity “Gramacho Landfill Gas Project” (2548).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the applicability of the methodology (AM0069 v1) as the applicability condition of AM0069 v1 specifies that biogas captured at a landfill (LFG) should be used to fully or partially substitute natural gas for the production of town gas and the produced town gas should be distributed through town gas grids, whereas, the project activity is designed to supply LFG to specific industrial users through a newly built exclusive pipeline and will be used by specific industrial users to produce town gas for captive consumption.

Project 2548	EB 50, Annex 37, 16 October 2009	Decision Class: Ruling Document Type: Scope of Review Business Function: Registration
