

**Annex 40****Registration****Scope of the review on
“Heilongjiang Fujin 48 MW Wind Power Project” (2573)**

1. The Board agreed to undertake a review of the project activity “Heilongjiang Fujin 48 MW Wind Power Project” (2573).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the additionality of the proposed project activity, through an assessment of the investment analysis, in particular, the:
 - (a) Board’s concerns regarding the suitability of the tariff as indicated in paragraph 48, EB49 report has not been adequately addressed by the DOE i.e. the DOE has not confirmed that there was a reduction in applicable tariffs between 2002 and the start date of the project activity and if so whether a higher tariff could be considered an E-policy or whether any such reductions could be a comparative advantage for more emissions intensive technology; and
 - (b) Level of O&M costs assumed when applying a constant value for this parameter, as the applied value of 4.4% of total investment cost is higher than in other similar project activities which also apply a fixed value for O&M costs.

Project 2573	EB 50, Annex 40, 16 October 2009	Decision Class: Ruling Document Type: Scope of Review Business Function: Registration
