

**Annex 31****Registration****Scope of the review on
“Project JBS S/A – Slaughterhouse Wastewater Aerobic Treatment –
Barra do Garças Unit” (2609)**

1. The Board agreed to undertake a review of the project activity “Project JBS S/A – Slaughterhouse Wastewater Aerobic Treatment – Barra do Garças Unit” (2609).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the baseline determination through an assessment of the proposed baseline scenario, in particular,
 - (a) Whether the readjustment of the anaerobic lagoons considered ensures a volumetric loading rate of COD above 0.1 kg COD m³ per day in line with the requirements of the applicable methodology, and
 - (b) The approach to validation, as no detailed description of the changes made to the baseline assumptions between the PDD submitted for the GSC and the PDD submitted for registration, has been provided in the validation report.

Project 2609	EB 51, Annex 31, 04 December 2009	Decision Class: Ruling Document Type: Scope of Review Business Function: Registration
