

**Annex 37****Registration****Scope of the review on
“Jiangxi Fengcheng CMM Distribution Project” (2666)**

1. The Board agreed to undertake a review of the project activity “Jiangxi Fengcheng CMM Distribution Project” (2666).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess the:
 - (a) Additionality of the project activity through an assessment of the:
 - (i) Start date of project activity as per the CDM Glossary of terms; and
 - (ii) Suitability of production costs, investment costs and government incentives to promote CMM technology such as VAT refunds, income tax holidays of 5 years; the 0.2 RMB/m³ incentive payment from the central government to CMM producers, etc.;
 - (b) Suitability of the project boundary as the extraction of the CMM gas from the mines is not included in the project boundary, whereas the project activity is CMM extraction and utilization; and
 - (c) Baseline determination as it is not clear whether the project activity was planned to be implemented anyway as construction started the same year as when the coke plant was closed in 2006.
