

**Annex 20****Registration****Scope of the review on
“Angang Coke Dry Quenching Project” (2703)**

1. The Board agreed to undertake a review of a project activity “Angang Coke Dry Quenching Project” (2703).
2. The Board agreed that the scope of the review relating to issues associated with validation requirements shall cover a review to assess:
 - (a) The additionality of the project activity through an assessment of:
 - (i) The description of the project activity in line with the paragraphs 58 and 64 of VVW as the PP and the DOE responses are not consistent; and
 - (ii) Suitability of the input values to the investment analysis, in particular, other cost and contingency cost of the total investment, and the potential savings due to the project activity being a back up steam facility; and
 - (b.) The application of the baseline and monitoring methodology through an assessment of:
 - (i) The exclusion of alternative 4 (waste energy is used for meeting energy demand, W4); and
 - (ii) How the internal energy demand of the industrial facility was met in the baseline scenario.
