

**Annex 56****Issuance****Scope of the review on****“Energeticos Jaremar- Biogas recovery from Palm Oil Mill Effluent (POME) ponds, and heat & electricity generation, Honduras” (1483)**

1. The Board agreed to undertake a review of a project activity “Energeticos Jaremar-Biogas recovery from Palm Oil Mill Effluent (POME) ponds, and heat & electricity generation, Honduras” (1483).
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine:
 - (a) Why the DOE has not requested for revision of the monitoring plan considering that the monitoring plan is not in accordance with the applied methodology AMS.I.C.v.11, with respect to the metering of energy produced, measurement of fossil fuel and comparison between the metered energy and calculated energy using the specific fuel consumption; and
 - (b) How the DOE verified that the methodology was applied correctly for the calculation of the emission reductions from power generation in gas engines considering that the applied methodology is applicable for thermal energy for the user.
