

AGENDA - A/R WORKING GROUP TWENTY-EIGHTH MEETING

Bonn, Germany

16–18 June 2010

Proposed new methodologies and methodological tools

AR-NM0037: “Afforestation/reforestation activities on degraded agricultural land subject to abandonment process”

Draft A/R methodological tool “Tool for estimation of changes in soil organic carbon stocks due to the implementation of A/R CDM project activities”

Requests for Clarification

AR_AM_CLA_0010 (All A/R methodologies): “Conservative reduction of the required precision levels of GHG removals at monitoring and verification by reducing the mean carbon density”

AR_AM_CLA_0011 (AR-AM0004 ver. 3, AR-AM0005 ver. 3, AR-AM0006 ver. 2, AR-AM0002 ver. 2, AR-AM0010 ver. 3):
“Submission of a PDD for registration with a valid version of an approved methodology listed above, for which the Global Stakeholder Process (GSP) was started with a later version of the methodology”

AR_AM_CLA_0012 (All A/R methodologies): “Applicability of the "Guidelines for the assessment for Investment Analysis" for AR CDM project”

SSC_AR_005 (All SSC A/R methodologies): “Declaration on low-income communities and individuals as per A/R CDM requirement”

Requests for Revision

Proposed New A/R Methodology Expert Form – Second Review (version 03) (F CDM AR-NMex_2d)

Proposed New A/R Methodology Expert Form – Lead Review (version 03) (F CDM AR-NMex_3d)

Other Issues (Work in progress)

- Consideration of a revision of the tool for “Estimation of changes in the carbon stocks of existing trees and shrubs within the boundary of an A/R CDM project activity
- Consideration of revision of the approved methodology AR-AM0006
- Consideration of revision of the approved methodology AR-AMS0001
