

DRAFT WORK PROGRAMME - AFFORESTATION AND REFORESTATION WORKING GROUP – EIGHTEENTH MEETING

UNFCCC Headquarters - Bonn, 11 - 13 February 2008

Monday, 11 February 2008

1. Welcome and organizational matters

2. Brief update from the Executive Board 36 and 37 meetings

3. Brief update from the CMP 3 meeting

4. Brief update from the Meth Panel 30 and 31 meetings

5. Consideration of cases

- a. ARNM0032-rev: "San Carlos" grassland restoration through afforestation
- b. ARNM0035: Rubber outgrowing and carbon sequestration in Ghana (ROCS-Ghana)

6. Other matters related to methodologies

- a. Draft proposal for "Guidance on the application of the definition of project boundary to A/R project activities to allow for more flexibility for those features of the project boundary that are specific for A/R CDM project activities"
- b. Draft proposal for "Tool for estimation of baseline net GHG removals by sinks in pre-project trees and shrubs"

7. Other matters related to methodologies that may not be reflected in public agenda and external report

- a. Consideration of broadening the applicability of the approved tool for "Estimation of GHG emissions related to displacement of grazing activities in A/R CDM project activity" (Version 01)
- b. Information on development of tool for estimation of leakage caused by use of non-renewable wood
- c. Information on development of tool for efficient stratification
- d. Information on development of tool for identification of degradation of land
- e. Information on development of tool for estimating changes in carbon stocks in dead organic matter
- f. Consideration of a need for development of tool for accounting for GHG emissions from forest fires
- g. Consideration of a need for development of tool for estimating changes in soil organic carbon stocks in the baseline
- h. Consideration of a need to standardise tables across methodologies and tools
- i. Consideration of a need for development of more SSC methodologies

Adjourn

Tuesday, 12 February 2008

8. In meeting working time

Adjourn

Wednesday, 13 February 2008

9. Finalization of cases

- a. ARNM0032-rev: "San Carlos" grassland restoration through afforestation
- b. ARNM0035: Rubber outgrowing and carbon sequestration in Ghana (ROCS-Ghana)

10. Finalization of other matters related to methodologies

- a. Draft proposal for "Guidance on the application of the definition of project boundary to A/R project activities to allow for more flexibility for those features of the project boundary that are specific for A/R CDM project activities"
- b. Draft proposal for "Tool for estimation of baseline net GHG removals by sinks in pre-project trees and shrubs"

11. Finalization of other matters related to methodologies that may not be reflected in public agenda and external report

- a. Consideration of broadening the applicability of the approved tool for "Estimation of GHG emissions related to displacement of grazing activities in A/R CDM project activity" (Version 01)
- b. Information on development of tool for estimation of leakage caused by use of non-renewable wood
- c. Information on development of tool for efficient stratification
- d. Information on development of tool for identification of degradation of land
- e. Information on development of tool for estimating changes in carbon stocks in dead organic matter
- f. Consideration of a need for development of tool for accounting for GHG emissions from forest fires
- g. Consideration of a need for development of tool for estimating changes in soil organic carbon stocks in the baseline
- h. Consideration of a need to standardise tables across methodologies and tools
- i. Consideration of a need for development of more SSC methodologies

12. Consideration and adoption of the Final Report
