

**WORK PROGRAMME - SMALL SCALE WORKING GROUP -
SEVENTH MEETING**

UNFCCC Headquarters - Bonn, 31 August - 1 September 2006

Thursday, 31 August 2006

9:00 – 10:30	<p>(1) Welcome and adoption of agenda</p> <p>(2) Brief update from the last Executive Board meeting</p> <p>(3) Revisions to definitions of small-scale project activities referred to in paragraph 6 (c) of COP decision 17/CP.7:</p> <ul style="list-style-type: none"> a) Public inputs: barriers to type II energy efficiency projects b) Consultancy report on barriers to type II energy efficiency projects c) Revision of definition of type I, type II and type III project activities
<i>Break</i>	
10:45 – 13:00	<p>(4) New Type III categories:</p> <ul style="list-style-type: none"> a) New category for avoidance of methane production from biomass decay through controlled combustion for project activities with over 25 kilo tons reductions b) SSC_056: Request to revise cap on emission reductions under AMS III.E. <p>(5) Responses for request for clarifications/revisions of SSC methodologies:</p> <ul style="list-style-type: none"> a) SSC_050: Request for clarification on capacity additions under ‘AMS-I.D. Grid Connected Renewable Electricity Generation’ b) SSC_055: Household cook stove and biogas stove: switch to renewable biomass c) SSC_057: Proposed new type III category: Avoidance of fluorinated gas fugitive emissions in air-conditioning systems and refrigeration applications
<i>Lunch</i>	
14:30 – 16:00	<ul style="list-style-type: none"> d) SSC_058: Amendments to III.C Emission reductions by low GHG emitting vehicles e) SSC_059: Proposal for a new type III category - Avoidance of methane release from pit charcoal manufacturing process through mechanized charcoaling process where methane is recovered and flared f) SSC_060: Request for revision of AMS-III.F to include the avoidance of methane production from anaerobic treatment of wastewater through composting g) SSC_061: Proposals for modifications of draft methodologies for non-renewable biomass
<i>Break</i>	
16:15– 18:00	<ul style="list-style-type: none"> h) SSC_062: Clarification on ‘same type of technology/measure’ under ‘debundling’ test i) SSC_063: Proposed amendments to category III.D j) SSC_064: Proposal for new Type III methodology- Reduction in consumption of electricity by recovering soda from paper manufacturing process <p>(6) Revision of PDD guidelines to clarify conditions under which common PDDs can be submitted</p> <ul style="list-style-type: none"> a) When submitting bundled projects b) When submitting projects with more than one component project activity <p>(7) Revision of ‘AMS - III.I. Avoidance of methane production in wastewater treatment through replacement of anaerobic lagoons by aerobic systems’ to broaden its applicability</p>

Friday, 01 September 2006

9:00 – 10:30	(8) Output capacity of renewable energy devices: Analysis of the conversion factor (m ² area to kW thermal) for solar thermal collectors (9) Revised recommendations on draft category “SSC III.J. Avoidance of fossil fuel combustion for carbon dioxide production” to be used as raw material for industrial processes
<i>Break</i>	
10:45 – 13:00	(10) Recommendations for Guidelines to use IPCC emission factors (11) Consistency of SSC categories with the corresponding large scale methodologies (12) Responses for request for clarifications/revisions of SSC methodologies (contd.)
<i>Lunch</i>	
14:30 – 16:00	(13) Other matters – Schedule of meetings in 2006/2007
<i>Break</i>	
16:15– 17:30	(14) Adoption of report and close of meeting
