

**Annex 63****Issuance****Scope of the review on
“Energy efficiency through steam optimisation projects at RIL, Hazira, ” (0261)**

1. The Board agreed to undertake a review of the project activity “Energy efficiency through steam optimisation projects at RIL, Hazira, ” (0261)
2. The Board agreed that the scope of the review relating to issues associated with verification requirements shall cover an assessment to determine how the DOE has verified that:
 - (a) The project was implemented as per the registered PDD with regard to the use of C09 as a fuel for the boiler; and
 - (b) The calculation of the emission reduction in accordance with the applied methodology, which requires the exclusion of data in the calculation of the emission reduction when the production was beyond the $\pm 5\%$ range of the name plate capacity.
