

REVIEW OF THE PROJECT ACTIVITY

6.6 MW Sheshadri Iyer Mini Hydel Power project of Atria Hydel Power Limited at Malavalli Taluk, Mandya District, Karnataka (0522)

The Board agreed to reject the project activity submitted for registration by the DOE (BVQI), considering that none of the institutional, prevailing practice and hydrology risk barriers were adequately demonstrated in the PDD and that the project participant and the DOE failed to substantiate any of these barriers during the review process, and therefore the project activity did not meet the additionality requirements as stipulated in paragraphs 43 to 52 of the CDM modalities and procedures.
