

INTER OFFICE CORRESPONDENCE

From : Rajesh Malpani (Partner)
To : Mr. Prafulla Khinvasara

Date: April 18, 2006

Reference: Your Wind Power Project up to March 2006

Subject:
Generation from our Windmills (Satara & Rajasthan) & CDM Process (Dhule/ Nandurbar Projects)

Dear Prafulla,

We are in receipt of your Wind Power Project report up to March 2006.

The generation figures from both 3.15 MW Satara & 5.0 MW Rajasthan Project seems to be on lower side than the earlier years. We need to get an explanation from Suzlon as to why the windmills are under performing. The losses are mounting to huge amounts and some action will need to be taken in this regard.

Regarding our new project in Dhule and Nandurbar districts, get quotations/ offers from CDM consultants. As evident from past experience in Satara and Rajasthan, the entire CDM process takes time. Therefore instead of waiting for all installations to be completed, the process should be initiated immediately so that by the time we finalize the Consultant and Validator, all our windmills will have been installed and the CDM cycle can begin right away.

Please initiate suitable action at the earliest and confirm.

Best regards...

Rajesh O. Malpani
