<ol style="list-style-type: none"> 1. The project participant calculated the CO₂ emissions of the digester auxiliary equipment based on a captive emission factor of 1.25 tCO₂/MWh, which was not indicated in the PDD. Further clarification is required on how the DOE has verified this emission factor. 2. The date of the site visit in the summary section of the verification report is different from section 6 of the verification report. A correction to the verification report is required. 	
Section below to be filled in by UNFCCC secretariat
