Attention to: Mr. Norberto Bellodi

Reference: Caldema Boilers, Series APU

Dear Sirs,

As requested, we would like to let you know that both boilers Series APU operating with an output of 175 TON/H each, 63.2 working pressure and 480°C steam temperature manufactured by Caldema, are exclusively designed and built for burning sugar cane bagasse and must not be put in operation burning other type of fuel, mainly if such a fuels are fossil by-products.

Sincerely,

José Roberto Martinelli
Director
