<ol style="list-style-type: none"> <li>1. The DOE confirmed that "In 2007, after a huge crisis, the quantity of wood processed by Sofia decreased significantly. In this situation, the two major suppliers became Batistella and Multiform, the latest considered as part of the spot market." Further information should be supplied to explain how the DOE verified the high load factor of the facility while the production of waste wood from Battistella and Sofia has been significantly decreased.</li> <li>2. There is inconsistency regarding the date of the verification. The duration of verification in the section 2 of the verification report stated that the date of preparations, on-site verification and reporting was done in 2006 while the section 2.2 of the report stated that the date is 26-27 June 2007.</li> </ol>
