**Section below to be filled in by UNFCCC secretariat**

Date received at UNFCCC secretariat	14/06/2006
-------------------------------------	------------

**Minor Reasons for Requesting a Review:**

1. The PDD indicates that the crediting period shall start as of June 1<sup>st</sup>, 2006. Since the crediting period has to start after the registration (which would occur on June 16, at the earliest), the date has to be corrected.

2. As regards Stakeholder comments, the PDD mentions (ref Page 31 Section G1) that Ecosecurities and project developer addressed questions raised by stakeholders. But section G.2 mentions that no comments were received which is validated by DOE as well. This issue needs clarification.
3. The PDD and the DOE refers the project as Co-generation. However the project does not use steam for any process and uses only for power generation. This needs clarification.
4. DOE states (ref Section 2, page 2) in the request for registration form that the revised DNA approval from Brazil Government is yet to be obtained.
