

 CDM project activity issuance review form <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i>	
Designated national authority/Executive Board member submitting this form (Name in print)	
Title of the proposed CDM project activity for which issuance is requested	0395 LDEO Biomass Steam and Power Plant in Malaysia
DOE that requested for issuance and date of request	DNV 09/01/08
Please indicate, in accordance with paragraphs 65 of the CDM modalities and procedures, for which reason(s) you request review. (Place a cross (X) in front of the reason)	
___ <i>Fraud</i> ___ <i>Malfeasance</i> <u> x </u> <i>Incompetence</i>	
Please indicate reasons for the request for review and attach any supporting documentation to this request form. (if space is not sufficient please attach further reasons)	

1. The monitoring report states that the biomass boiler and 1.2MW steam turbine are operating while the installation of the second stage (6MW) turbine is ongoing, and that the emission reductions are based on the amount of steam generated by the biomass boiler, methane emissions avoided by project and electricity displaced. However, the DOE states in the verification report (p.5) that emissions reductions are only based on the amount of steam generated and methane emissions avoided. Clarification is required.
2. The DOE verified the boiler working pressure as 15.3 bar, however, the monitoring report states that the operating pressure of the boiler was 23 bar gauge, which was used as the basis of estimating the steam enthalpy for calculating baseline emission for fuel displacement. Clarification is required.
3. The use of other biomass than EFB (mesocarp fibre and palm kernel shell) was allowed for the previous monitoring period based on the approved deviation. However up to now the project participant has used these materials continuously. A request for revision of monitoring plan should be submitted.

Section below to be filled in by UNFCCC secretariat
