

 <b>CDM project activity issuance review form</b> <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i>	
<b>Designated national authority/Executive Board member submitting this form (Name in print)</b>	
<b>Title of the proposed CDM project activity for which issuance is requested</b>	0711 Mysore Cements Limited Portland Slag Cement project
<b>DOE that requested for issuance and date of request</b>	SGS 13/05/08
<b>Please indicate, in accordance with paragraphs 65 of the CDM modalities and procedures, for which reason(s) you request review. (Place a cross (X) in front of the reason)</b>	
<input type="checkbox"/> <i>Fraud</i> <input type="checkbox"/> <i>Malfeasance</i> <input checked="" type="checkbox"/> <i>Incompetence</i>	
<b>Please indicate reasons for the request for review and attach any supporting documentation to this request form. (if space is not sufficient please attach further reasons)</b>	
<b>Other issues:</b> 1. For the purpose of calculating leakage due to transport of additive materials, the spreadsheet of the monitoring report indicates 1400 kms as the distance between the source of additive and the project activity plant. However, the distance indicated in the spreadsheet for validation is different. Clarification is required how the distance between the source of additive and the project plant is verified. 2. The monitoring plan states that the baseline grid emission factor will be calculated yearly, while in the monitoring report it was reported as calculated once. Clarification is required.
