

**Annex 52****Issuance****Scope of the review on
“GHG emission reduction by thermal oxidation of HFC 23 at Navin Fluorine
International Limited (NFIL), Surat, Gujarat, India” (0838)**

1. The Board agreed to undertake a review of the project activity “GHG emission reduction by thermal oxidation of HFC 23 at Navin Fluorine International Limited (NFIL), Surat, Gujarat, India” (0838).
2. The Board agreed that the scope of the review shall cover an assessment to determine the potential to inflate the baseline of HCFC22 CDM project activities and thereby generate emission reductions that are in excess of what would have been issued in accordance with CDM rules and requirements.
