

 <p><b>CDM project activity registration review form (F-CDM-RR)</b>  <i>(By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)</i></p>	
<b>Designated national authority/Executive Board member submitting this form</b>	
<b>Title of the proposed CDM project activity submitted for registration</b>	Allain Duhangan Hydroelectric Project (ADHP) (0862)
<p><b>Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.</b></p>	
<p><input type="checkbox"/> <i>The following are requirements derived from paragraph 37 of the CDM modalities and procedures:</i></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> The participation requirements as set out in paragraphs 28 to 30 of the CDM modalities and procedures are satisfied;</li> <li><input type="checkbox"/> Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received;</li> <li><input type="checkbox"/> Project participants have submitted to the DOE documentation on the analysis of the environmental impacts of the project activity, including transboundary impacts and, if those impacts are considered significant by the project participants or the host Party, have undertaken an environmental impact assessment in accordance with procedures as required by the host Party;</li> <li><input type="checkbox"/> The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures;</li> </ul> <p>* The baseline and monitoring methodologies comply with requirements pertaining to methodologies previously approved by the Executive Board;</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Provisions for monitoring, verification and reporting are in accordance with decision 17/CP.7, the CDM modalities and procedures and relevant decisions of the COP/MOP;</li> </ul> <p>* The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board.</p> <p><input type="checkbox"/> <i>The following are requirements derived from paragraph 40 of the CDM modalities and procedures:</i></p> <ul style="list-style-type: none"> <li><input type="checkbox"/> The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project participants written approval of voluntary participation from the designated national authority of each Party involved, including confirmation by the host Party that the project activity assists it in achieving sustainable development;</li> <li><input type="checkbox"/> In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document;</li> <li><input type="checkbox"/> The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available;</li> <li><input type="checkbox"/> After the deadline for receipt of comments, the DOE shall make a determination as to whether, on the basis of the information provided and taking into account the comments received, the project activity should be validated;</li> <li><input type="checkbox"/> The DOE shall inform project participants of its determination on the validation of the project activity. Notification to the project participants will include confirmation of validation and the date of submission of the validation report to the Executive Board;</li> <li><input type="checkbox"/> The DOE shall submit to the Executive Board, if it determines the proposed project activity to be valid, a request for registration in the form of a validation report including the project design document, the written approval of the host Party and an explanation of how it has taken due account of comments received.</li> </ul> <p><input type="checkbox"/> There are only minor issues which should be addressed by the DOE / project participants prior to the registration of the project.</p>	
<b>Section below to be filled in by UNFCCC secretariat</b>	
Date received at UNFCCC secretariat	05/04/2007

Reasons:

1. The calculation of the OM is not clear. There is a need for further clarification. Import of power from Western and Eastern grids are given in the excel sheet along with the grid emission factors. However, the PDD on page 8 states that for electricity imports  $C_{i,j,imports}$  from **other connected electricity systems** has been considered as "0" tCO<sub>2</sub>/MWh as a conservative approach. Since the Western and Eastern grid also are to be considered "other connected electricity systems" this is confusing. **Excel sheets don't show how imported electricity at "0" tCO<sub>2</sub>/MWh is taken into the calculations.**

If import is not included (as it seems from excel calculations) in current generation, then after including these imports the OM-EF would go down to from 0,750 to 0,696 tCO<sub>2</sub>/MWh for the year 2004-05.

2. Information on the hydro reservoirs and its capacity is missing in the PDD.

3. It is not clear why in table 1.2 of the PDD the IPCC default value for the Fuel emission factor is used, since this is not the preferred option.
