☐ In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document;	
☐ The DOE shall receive, within 30 days, comments on the accredited non-governmental organizations and make the	he validation requirements from Parties, stakeholders and UNFCCC m publicly available;
☐ After the deadline for receipt of comments, the DOE sh information provided and taking into account the comment	all make a determination as to whether, on the basis of the its received, the project activity should be validated;
	nation on the validation of the project activity. Notification to the and the date of submission of the validation report to the Executive
	rmines the proposed project activity to be valid, a request for project design document, the written approval of the host Party and nts received.
☐ There are only minor issues which should be addressed by	the DOE / project participants prior to the registration of the project.
Section below to be filled in by UNFCCC secretariat	
Date received at UNFCCC secretariat	23/03/2007

1 Application of methodology- AMS III B "switching fossil fuels" is not an appropriate methodology for the fuel switch measure 'natural gas to hydrogen', as hydrogen is not a fossil fuel but simply represents an energy carrier that is normally produced by means of natural gas or fuel oil.

- 2- There is a different grid emission factor mentioned in the Validation Report as compared to the factor outlined in the PDD.
- 3 The additionality of the project-The validity of the arguments related to the investment barriers
