

CDM project activity registration review form (F-CDM-RR) (By submitting this form, a Party involved (through the designated national authority) or an Executive Board member may request that a review is undertaken)

undertaken)			
Designated national authority/Executive Board member submitting this form			
Title of the proposed CDM project activity submitted for registration		1035 Compañía Azucarera Hondureña S.A. cogeneration project	
Please indicate, in accordance with paragraphs 37 and 40 of the CDM modalities and procedures, which validation requirement(s) may require review. A list of requirements is provided below. Please provide reasons in support of the request for review, including any supporting documentation.			
	The following are requirements derived from paragraph 37 of t	the CDM modalities and procedures:	
	☐ The participation requirements as set out in paragraphs 2	28 to 30 of the CDM modalities and procedures are satisfied;	
	Comments by local stakeholders have been invited, a summary of the comments received has been provided, and a report to the designated operational entity (DOE) on how due account was taken of any comments has been received;		
	activity, including transboundary impacts and, if those impac	tation on the analysis of the environmental impacts of the project ts are considered significant by the project participants or the host t in accordance with procedures as required by the host Party;	
	The project activity is expected to result in a reduction in anthropogenic emissions by sources of greenhouse gases that are additional to any that would occur in the absence of the proposed project activity, in accordance with paragraphs 43 to 52 of the CDM modalities and procedures;		
	☐ The baseline and monitoring methodologies comply with a Executive Board;	requirements pertaining to methodologies previously approved by the	
	accordance with decision 17/CP.7, the CDM modalities and		
	☐ The project activity conforms to all other requirements for CDM project activities in decision 17/CP.7, the CDM modalities and procedures and relevant decisions by the COP/MOP and the Executive Board.		
☐ The following are requirements derived from paragraph 40 of the CDM modalities and procedures:			
	The DOE shall, prior to the submission of the validation report to the Executive Board, have received from the project rticipants written approval of voluntary participation from the designated national authority of each Party involved, including infirmation by the host Party that the project activity assists it in achieving sustainable development;		
	☐ In accordance with provisions on confidentiality contained in paragraph 27 (h) of the CDM modalities and procedures, the DOE shall make publicly available the project design document;		
	☐ The DOE shall receive, within 30 days, comments on the validation requirements from Parties, stakeholders and UNFCCC accredited non-governmental organizations and make them publicly available;		
	After the deadline for receipt of comments, the DOE shall make a determination as to whether, on the basis of the information provided and taking into account the comments received, the project activity should be validated;		
	☐ The DOE shall inform project participants of its determination on the validation of the project activity. Notification to the project participants will include confirmation of validation and the date of submission of the validation report to the Executive Board;		
	☐ The DOE shall submit to the Executive Board, if it determines the proposed project activity to be valid, a request for registration in the form of a validation report including the project design document, the written approval of the host Party and an explanation of how it has taken due account of comments received.		
☐ There are only minor issues which should be addressed by the DOE / project participants prior to the registration of the project.			
Section below to be filled in by UNFCCC secretariat			
Dat	te received at UNECCC secretariat	03/07/2007	

The thermal firing capacity at the site before and after the project activity should be clearly stated. On this basis it should be transparently justified how the requirement of scenario 14 of the approved methodology that the project should "increase the power generation capacity, while the thermal firing capacity is maintained" has been met.
