Dear Mun Leong,

Please find below the details of the person that could enlighten more about the subject of applying for CDM.

Soeren Varming (019 2567970) is a Danish consultant, in the past he worked with Danced and Pusat Tenaga Malaysia to explore on possible projects that could apply for carbon credits.

As said, only recently (especially after the Kyoto protocol got ratified in february 2005) consultants sound more confident in this very new business.

Many other consultants in energy business profile themselves in this CDM business, but so far only Simon Varming gave me the impression he knows how to apply and I presume he has also good contacts with the Danish embassy that is very interested to buy carbon credits from Malaysian projects.

Hopefully he can help you with this.

Best regards,

Jef MESTDAGH
